

ENVIRONMENTAL POLICY STATEMENT

Inspectahire Instrument Company Ltd recognises that its activities have actual and potential impacts on the environment and acknowledges its responsibility to minimise these impacts wherever practicable.

We are committed to protecting the environment, preventing pollution, using resources responsibly and reducing our carbon and environmental footprint.

Effective environmental management forms an integral part of our business activities and continual improvement objectives. This policy is communicated to employees and is available to relevant interested parties.

Inspectahire Instrument Company Ltd applies several environmental principles to all its activities. We are committed to:

- a) Complying with applicable environmental legislation, regulatory requirements and other environmental obligations relevant to our activities.
- b) Minimising waste and promoting the efficient use of resources through measures including:
 - reducing paper and other consumable waste;
 - segregating and recycling waste wherever practicable;
 - reducing unnecessary energy and fuel consumption;
 - managing the use of non-renewable resources; and
 - preventing pollution to air, land and water.
- c) Reviewing projects to, where appropriate, ensure implementation of means to minimise environmental impact and/or prevent pollution.
- d) Supporting biodiversity and the local environment through appropriate initiatives at our premises and considering opportunities to protect and enhance biodiversity where practicable.
- e) Being sensitive to the Environmental concerns of our Clients and Community through which we operate and responding to them.
- f) Eliminating where possible but if this is not possible, reducing to as low as practicable our environmental aspects that have impacts specifically minimising the environmental impact, for the life cycle; (including disposal), of plant, equipment, and other physical assets under the control of Inspectahire Ltd.
- g) Involving our staff fully in reviewing their work and the downstream implications in terms of environmental considerations.
- h) Providing the resources to enable us to implement our Environmental Policy.
- i) Setting appropriate environmental objectives and periodically reviewing our environmental arrangements to identify opportunities for continual improvement.
